**Each school review generates a number of key improvement strategies to inform continuous improvement in all state schools. The next steps are...**

- ➔ Deepen teacher understanding of planning and implementing the Australian Curriculum through regular, systematic and supported opportunities for collaborative planning.
- ➔ Collaboratively develop and implement a school-wide, systematic plan for building the capability of all members of the teaching team, through coaching, mentoring, observation and feedback, and opportunities for watching others work.
- ➔ Collaboratively develop and implement a plan to enhance staff morale and wellbeing, including strategies to enhance communication, celebrate achievements, and establish processes that support all staff groups to engage positively and proactively with leaders.
- ➔ Utilise an action planning process to support the implementation of improvement priorities, establishing end-point and mid-point success criteria, supported by clearly stated actions, targets, timelines, and responsibilities and accountabilities.
